VITAFLO® - 280

This seed has been treated with carbathiin and thiram (VITAFLO®-280 Fungicide Liquid Seed Protectant, PCP No. 11423). Wear a long-sleeved shirt, long pants, shoes and socks and chemical-resistant gloves when handling treated seeds.

DO NOT USE TREATED SEEDS FOR FOOD, FEED OR OIL PROCESSING. Store away from food and feed. Baggers, sowers and workers involved in handling treated seeds must wear long-sleeved shirt, long pants, chemical resistant gloves, shoes and socks and a dust mask or appropriate respirator to minimize exposure to dust from treated seeds.

VITAFLO-280 Fungicide treated wheat, oats, barley, rye, triticale and flax seed may be stored for up to 18 months without reduction in germination due to the treatment chemical.

VITAFLO-280 Fungicide treated corn seed may be stored for up to one year without reduction in germination due to the treatment chemical.

Do not store treated snap common bean, dry common bean, peas, lentils or soybean seed.

Do not graze or feed livestock on treated areas for 4 weeks after planting, except for the following crops:
Soybeans - Do not graze or feed livestock on forage and hay on treated areas.
Dry Beans - Do not graze or feed on bean forage for 60 days after planting.
Barley, Oats, Wheat - Do not graze or feed on treated area for six weeks after planting.

Do not contaminate food, feed, domestic or irrigation water supplies, lakes, streams and ponds.

SAFETY PRECAUTIONS:

1. **KEEP OUT OF REACH OF CHILDREN.**
2. **Warning: Eye irritant. DO NOT** get into eyes. In case of contact with eyes flush IMMEDIATELY with running water and seek medical attention.
3. Harmful if swallowed, inhaled, or absorbed through the skin. Do not swallow, do not get on skin or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash separately before reuse.
4. Because of possible unpleasant side effects, alcoholic beverages should be avoided for 24 hours before or after working with VITAFLO-280 Fungicide or treated seed.
